

# Profort A/S

## Wired alarm

**multiGuard Light**  
4 output + 10 inputs

**multiGuard micro**  
1 output + 2 inputs + 1 Infrared

**multiGuard remote**  
1 output + 2 inputs + 2 Infrared

## Wireless alarm

**multiGuard Industri**  
5 outputs + 8 inputs +  
60 wireless + Display

**Piccolo**  
PC + 32 wired receivers +  
6400 wireless sensors

## Profort A/S

- Danish engineering company
- 12 years on market
- Danish developed and produced

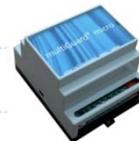

## Products:

- **multiGuard:** GSM- alarm,  
control og logging
- **Piccolo:** Wireless object  
protection

# GSM/GPRS set-up and alarm

# Specification

## Hardware:

- Output relays: 6A / 16A
- Analog output: 0-10V
- Input alarm: NO/NC or 24V
- Input analog: 0-10V, 4-20 mA, PT100, temperature probe
- Input 0: ON/OFF (level-/puls switch)
- Input 1: Pulse- minute counter
- 90 sek. Voice recording
  - 6 sec. ID
  - 6 sec. / 2x3 sec. per input
  - 3 sec. Power supply + sabotage
- DTMF tones for automated alarm equip.
- Build-in antenna – external possible
- Alarm by power failure(w/ battery)

## Functions in SW

- 25 numbers in calling list
- 8 alarm zones
- 10 macros (alias for commands)
- Activate output by alarm (10 sec. – 15 min. / constant / follow input)
- Command execution in text by alarm
- Time controlled ON / OFF
- Timer control of output 2 (2 intervals)
- Status message (15. min. – 1 x pr. week)
- Screening of calling party for control
- Filter on inputs (10 sec. – 30 min.)
- Delay of alarm (30 sec.)
- Change calling order by SMS
- Modem for PLC via RS232
- SIA-IP for supervision of alarms (GPRS)

ENGINEERING

# PC-program

## Quick set-up:

- ◆ 4 menus with help text

## Basic set-up:

- ◆ Upload configuration
- ◆ Management of many configs.
- ◆ a.m.m.

ENGINEERING

# Log

## Alarm

- 256 alarms and commands
- Time stamp of alarms
- Read log with sms
- Read log with PC (Basic set-up)

Alarm log

## Analog measurements

- 2 x per hour
- 2 years data in log
- Data as .csv-file
- Export to e.g. MS Excel

Date  -
